

PERFECT REGULAR BOX (PBB)

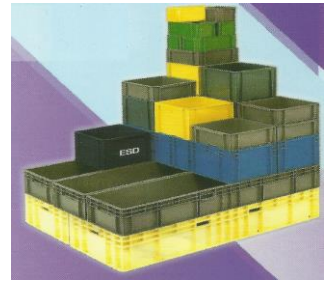

PP CORRUGATED SHEET

NEYCOM BUBBLE SHEET

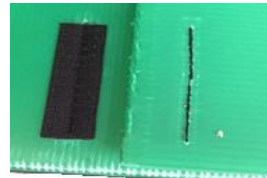

PP SOLID SHEET

TP POLYBOX

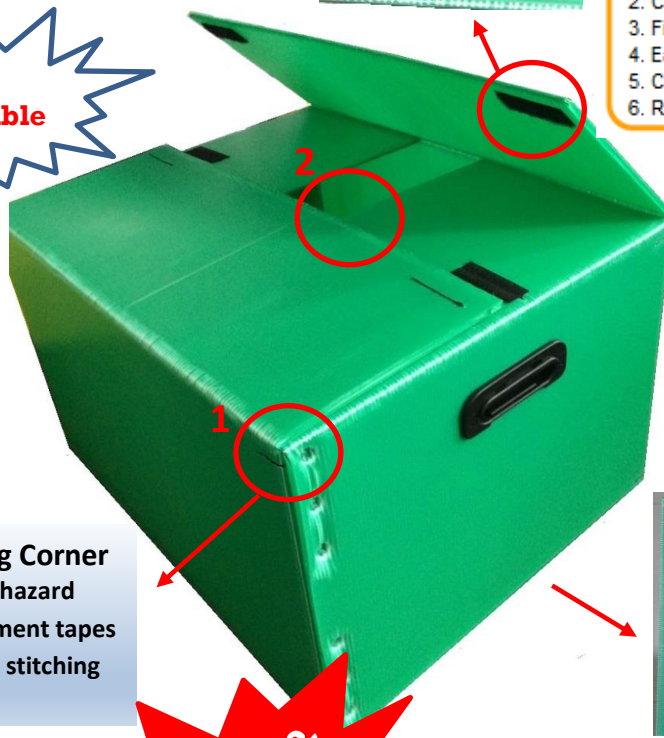

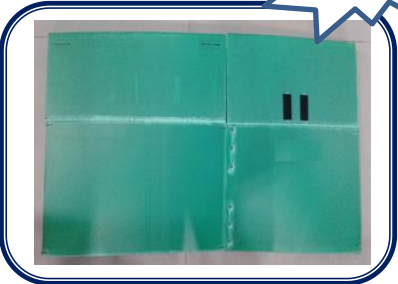

Velcro at cover
Uses of Velcro to
replace traditional
OPP tapes

PP Corrugated Box vs Paper Box

1. Impervious to moisture
2. Chemical and mildew resistant
3. Fibre-free
4. Easy to clean
5. Colorful & presentable
6. Reusable & returnable

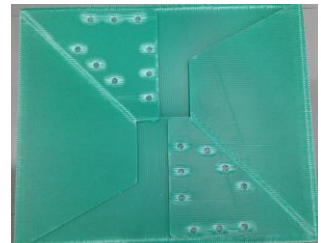

Foldable

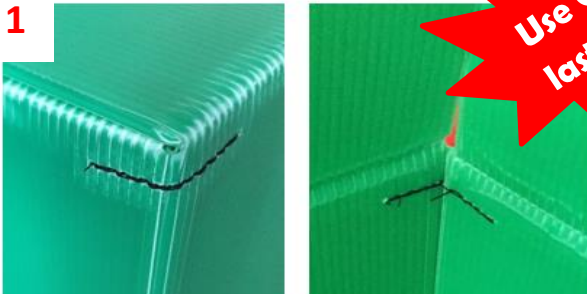

Bottom Ultrasonic
Uses of ultrasonic
instead of staplers at
the bottom-joints

Stitching Corner
No more hazard
with Filament tapes
with new stitching
technic!

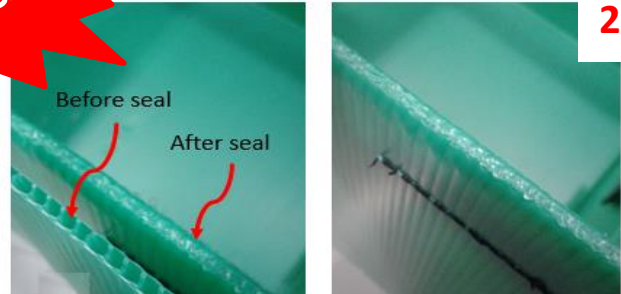

Corner with Stitching

Use of sewing threads to strengthen the corners of the box, the box will not be easily tear apart at the folding line.

**Use Corlite,
last longer!**

Heat-seal Edges

Uses of heat to seal the "holes" at the edges of the box, which help to prevent entering of water, dust and small insects, as well as to reduce the risk of injury due to sharp edges.
